A. Mayor

None.

B. Foundation

None.

C. Legal

Mr. McCarthy noted that the contract with AA Architects took 8 months to complete. He expressed concern with meeting the timetable originally outlined for the project, which would have had the bulk of the construction take place during the Library's slow period of January - February 2015. The bidding documents promised by AA are more than 3 weeks overdue.

Mr. McCarthy outlined three options for the Library at this stage:

- 1). Call a meeting with AA and insist on reviewing the required documents immediately
- 2). Advise AA that we are putting the project on hold due to missed deadlines
- 3). Terminate the deal with AA and proceed with another architect.

It was decided that Mr. McCarthy and Mr. Hamer will meet with AA and request that the required documents be provided no later than early September. A check for work already completed by AA will be issued by the Library but will not be tendered to AA unless this deadline is met.

9. Old Business

The status of the building improvements was previously discussed.

10. New Business

A. Energy Grant

Mr. Hamer presented the summary of the grant proposal from PSE&G to replace all light fixtures in the Library. Retail cost would be \$98,000. Cost to us under the grant is less than \$30,000. In order to qualify, we would have to do the work before the end of 2014.

Mr. Hamer answered questions about the light fixtures. He explained that in the past year we spent \$8200 to replace old ballasts.

Projected energy savings total \$24,000 per year.

The Board decided not to move forward at this time due to the uncertainty surrounding the construction project.
